

REMARKS

By the foregoing, the title and claim 3 have been amended. The other amendments made via examiner's amendment are reflected in the listing of claims presented herein. No new matter has been added.

With respect to the title, it appears the Office adopted the amended title of the counterpart international application. No such amendment was effected in this application, and the applicants respectfully request that the title be amended to be consistent with the title as originally filed (as in this document).

If the title is not amended to be consistent with the originally filed title, the applicants respectfully request correction of the spelling of "Bisaryl" in "9 Aryl and Bisayl (sic) Substituted Polyfluorenes."

Claim 3 has been amended to be more consistent with the language of claim 1 and to improve its form.

CONCLUSION

Should the examiner wish to discuss the foregoing, or any matter of form or procedure in an effort to advance this application to allowance, she is respectfully invited to contact the undersigned attorney at the indicated telephone number.

Respectfully submitted,
